Regarding amended independent claims 1, 10, 11, 14, and 15, the prior art of record does not disclose wherein the characteristic of the received signals is compared with a predetermined value after the first measurement in the series of measurements to be taken so as to obtain an average value and continuing with an averaging sequence on a radio technology even if it is determined that no suitable cell is likely to be identified.

Claims 2, 4-7, and 9 are allowable as being dependent on an allowable independent claim.
